CNC FOLDING & LASER PROFILING

As a new addition to R J Smyth Engineering Ltd.'s current fabrication services we now offer precision CNC metal profiling & folding services for companies across Northern Ireland.

Using the latest technology we are able to cut a full range of both sheet and tube to the following thicknesses:

- Mild Steel up to 20 mm
- Stainless Steel up to 15mm
- Aluminium up to 8mm

Large capacity for cutting with auto loading for 24/7 lightsout production.

Inhouse CAD team can work to and modify drawings as well as sketches and concepts.

R J Smyth Engineering Ltd specialise in a fast efficient and flexible service for all new and existing customers.

For all your CNC Laser cutting, folding and fabrication needs please do not hesitate to contact us.
